colour in glazes ceramic arts network

May 31st, 2020 - color
is often introduced into
ceramic glazes by adding
mercial stains which
have been manufactured
by heating together
coloring oxides and
opacifiers this book
shows how to make
colored glazes directly
from oxides as well as
showing what kinds of
base glazes best bring
out different colors'

June 2nd, 2020 - stains
like other ceramic
materials are subject to
the three variables of
glaze makeup temperature
and atmosphere outside
the color wheel one
finds tones of brown
gray and black these

moderate other colors a color wheel could i suppose include the range of opacifiers since they also have a strong role in affecting color'
