'RS400 Hints and Tips Tuning Burghfield Sailing Club

July 5th, 2018 - But be aware that reducing the jib halyard tension for example alters many things more mast rake less ram so more bend in the mast less tension more flexible rig and easier gust response more jib luff sag less pointing ability Increasing the halyard tension can reduce mast rake and increase the ram pressure less bend in the mast'

'From the Experts Snipe

July 2nd, 2018 - The use of aft mast ram is critical to offwind speed the farther aft you pull the mast the straighter and more powerful the mainsail and the less the spreaders will obstruct the sail's shape. If you pull too hard however the mast will reverse and take a permanent bend. In heavy air always have the mast set at or forward of the neutral.'
