Thermodynamique ? Wikipédia

April 27th, 2018 - Étude des propriétés de la chaleur et des machines thermiques Les notions de chaleur et de température sont les plus fondamentales de la thermodynamique Il est possible de définir la thermodynamique comme la science de tous les phénomènes qui dépendent de la température et de ses changements'

'Phase diagram Wikipedia

April 27th, 2018 - For the use of this term in mathematics and physics see phase space A phase diagram in physical chemistry engineering mineralogy and materials science is a type of chart used to show conditions pressure temperature volume etc at which thermodynamically distinct phases occur and coexist at equilibrium'
