**'human compatible by Stuart Russell Kirkus reviews**

December 12th, 2019 - in this authoritative trade debut he examines the idea of human and machine intelligence, the problems involved in creating extremely intelligent machines, and the need to retain human control of them. Although more scientific breakthroughs are needed, he writes AI will certainly be the dominant technology of the future. **'human compatible AI and the problem of control Russell**

May 20th, 2020 - human compatible is an extremely important book. It convincingly argues that true success in building AI would be one of the greatest ever changes in the human condition, for better or for worse. Yet that the researchers working towards such a success are deeply unprepared for what it would bring.

**'human compatible artificial intelligence and the problem**

May 15th, 2020 - in the popular imagination superhuman artificial intelligence is an approaching tidal wave that threatens not just jobs and human relationships but civilization itself. Conflict between humans and machines is seen as inevitable and its outcome all too predictable.
