fairplay from music**

May 26th, 2020 - requiem is a

program that removes apple's drm called fairplay from songs videos and books purchased on itunes this allows content purchased on itunes to be played on non apple approved devices like a slimserver or linux box the drm removal is a lossless process it is merely decrypting the file not decoding and re encoding it meaning"

requiem book review

April 29th, 2020 - like most dystopian stories requiem demands that the reader think about society governmental control and the importance of standing up for your

freedom lena s journey isn t easy
and many people she loves are
either killed or have suffered
tremendously but the overall
message is that the right to love is
worth fighting for even it es at a
heavy personal cost"
