planetary knowledge core  
April 23rd, 2020 - A typewriter is  
a mechanical or electromechanical  
machine for writing characters  
similar to those produced by  
printer s movable type A  
typewriter operates by means of  
keys that strike a ribbon to  
transmit ink or carbon impressions  
onto paper Typically a single  
character is printed on each key  
press The machine prints  
characters by making ink  
impressions of type elements  
similar to the sorts'**
