Contact types ? LS DYNA Support

May 15th, 2018 - In crash analysis the deformations can be very large and predetermination of where and how contact will take place may be difficult or impossible For this reason the automatic contact options are recommended as these contacts are non oriented meaning they can detect penetration coming from either side of a shell element"*Google*

May 12th, 2018 - Search the world s information including webpages images videos and more Google has many special features to help you find exactly what you re looking for'

'Contact Modeling in LS DYNA ? LS DYNA Support

May 15th, 2018 - Contact treatment forms an integral part of many large deformation problems Accurate modeling of contact interfaces between bodies is crucial to the prediction capability of the finite element simulations'
