'catalysis heterogeneous catalysis britannica

May 31st, 2020 - catalysis catalysis heterogeneous catalysis many catalytic processes are known in which the catalyst and the reactants are not present in the same phase that is state of matter

these are known as heterogeneous catalytic reactions they include reactions between gases or liquids or both at the surface of a solid catalyst since the surface is the place at which the reaction occurs it

'heterogeneous catalysis

March 24th, 2020 - heterogeneous catalysis is the type of catalysis where the phase of the catalyst differs from the phase of the reactants or products contrasts with homogeneous catalysis where the reactants products and catalyst exist in the same phase phase distinguishes between not only solid liquid and gas ponents but also immiscible mixtures e g oil and water or anywhere an interface is present'

'the basis and applications of heterogeneous catalysis
